

# MEDIACE 2026

*Dear Colleagues,*

We are pleased to invite you to **the 8th International Scientific Conference MEDIACE 2026**, hosted by the **Faculty of Law at Palacký University in Olomouc** on **4 December 2026**.

Over the years, the conference has established itself as the premier professional gathering dedicated to mediation in the Czech Republic. **Its traditional aim is to offer an interdisciplinary perspective on mediation in both the Czech and international contexts.** Attention will be focused on topics in the fields of theory, research, education, and the practical application of mediation. We will discuss mediation in its entirety, across various fields and forms of its application.

**A new feature this year** will be a revised conference format, alternating between plenary dialogues, thematic sessions, and innovatively focused workshops.

We believe that the 8th annual MEDIACE 2026 conference will be just as successful as previous editions and will foster lively academic debate, advance the field, and provide enjoyable experiences.

*Sincerely,*

**Václav Stehlík**

Dean of the Faculty of Law  
Palacký University in Olomouc
